

IGNÉO

MEDIUM PRESSURE FAN WITH BACKWARD IMPELLER 400°C/2H CERTIFIED INSIDE THE HAZARDOUS AREA

MANUFACTURING FEATURES

- Medium pressure centrifugal fan with direct coupling.
- Reinforced housing made of carbon laminated steel, protected against corrosion by powder coating polyester resin RAL 5010. Finish C3.
- Casing fully latched and adjustable.
- Self-cleaning turbine and reinforced impeller with high-performance backward (reaction) blades made of carbon laminated steel dynamically balanced to minimize noise and vibrations. Graffiti black RAL 9005.
- Motor with S1 service class for continuous operation and approved 400°C / 2h for service class S2. IEC standardized asynchronous squirrel-cage motor with IP-55 protection and electrical insulation class H. Standard voltages 400V(Y) 50Hz in three phase motors up to 3kW and 400(D)50Hz for higher powers.
- Motor with foot (B3) supported on motor support foot.
- Models of size 500 and above are supplied with a front support foot, for the other models the front support foot is optional.
- Inspection door to facilitate maintenance and cleaning.
- Available in the following orientations (to be indicated in case of order): LG0, LG45, LG90, LG135, LG180; LG225, LG270, LG315, RD0, RD45, RD90, RD135, RD180; RD225, RD270, RD315.
- Maximum working temperature in continuous: air transported: 130°C (service S1) and 400°C/2h (service S2), and maximum environment temperature: 60°C.

APPLICATIONS

Installation in conduit for the impulsion or aspiration of clean and dusty air in:

- Big buildings
- Malls
- Factories / Industrial buildings
- Warehouses
- Parking lots
- Catering / Hospitality
- Extraction of smoke
- Boilers and ovens
- Manufacture and treatment of chemical products.
- Tunnels, underground stations.

UNDER REQUEST

- Fans to work at 60Hz and special voltages.
- 2 speed motor.
- C4-C5
- Hot dip galvanized
- Fully welded housing (watertight)
- Drain plug

Official homologation by the European laboratory APPLUS according to EN 12101-3:2015
